Argosy is focused on Building a *Better Future.*

For our tenants

and their staff by creating well designed, vibrant and sustainable spaces for tenants and their staff to work, prosper and flourish.

For the environment

by reducing the impact of our operations on the environment, primarily carbon emissions.

For our stakeholders

by improving the sustainability and resilience of our business by focusing on a wider range of outcomes over and above financial returns.

Why Argosy?

Strong track record

Argosy is one of New Zealand's largest commercial landlords, owning a diversified portfolio of 50 properties worth over \$2.0 billion across industrial, office and large format retail investment property.

Personal Care

We are a nimble and decisive business, able to move quickly in partnerships with our tenants to achieve mutually beneficial outcomes. Two dedicated relationship managers – a property manager and an asset manager – will work alongside you, ensuring we both achieve value from the relationship.

Value-add

As a property specialist, who has office, industrial and retail assets in their portfolio, we understand the needs of our customers and their customers. This experience and understanding, along with our knowledge of the Auckland market, will allow us to deliver value to you, way beyond just physical space.

Growth Partner

With a number of existing properties, buildings throughout the country, and active pipeline of new developments, we will work with you to support your future growth aspirations, in Auckland and throughout New Zealand.

Quality, integrity and trust

We are an organisation always striving for outstanding performance and innovation, without ever compromising our ethics or principles. We place great importance on honesty, integrity, quality and trust and aspire to maintain the highest standards of corporate behaviour and accountability.

Sustainable Focus

Sustainability is at the heart of what we do as a business and how we plan to grow. This is evident by our growing portfolio of award-winning and innovative green buildings. We'll bring all this knowledge and expertise to working with you to deliver the facilities and specification that meet all your energy usage and efficiency requirements.
